

ROYAL BAKING POWDER

A cream of tartar baking powder. Highest of all in leavening strength. Latest U. S. Government Food Report. ROYAL BAKING POWDER CO., 106 WALL ST. N. Y.

AT THE THEATRES.

De Wolf Hopper at the Broadway.
"Wang's" long and brilliant reign in the realm of comic opera is rapidly approaching its close at the Broadway Theatre, New York city, and the final performance of Goodwin and Morse's sprightly burlesque is announced to take place on Saturday evening, October 15th. On the following Monday evening, October 17th, Sydney Rosenfeld's classic opera, "The Lady or the Tiger?" for which the composer, Julius J. Lyons, has contributed several new musical numbers, will be presented. Mr. Hopper appearing in his admirable characterization of Paganini, the Regent of Sparta, a role which he originated while under Col. John A. McCaull's management, and which is generally conceded to be one of the comedian's greatest creations. Elaborate and extensive preparations are now in progress for the revival. The opera will be handsomely staged and costumed, and every principal, as well as the full chorus of this now famous organization, and which includes Della Fox, Marie Millard, Anna O'Keefe, Marion Singer, Samuel Reed, Edmund Stanley, Alfred Klein, Camm Mauvel, and also Jefferson De Angelis, for three years the leading comedian of the Casino, who has been specially engaged to play his original role of Menander, the prophet, will appear in the production. The special feature of "Wang's" 33d week in the metropolis, which commenced on last Monday evening, was "Columbus Night" on Wednesday evening. American and Italian bunting, as well as brilliant flowers, were extensively used in the decoration of the auditorium, lobbies, and boxes. Numerous Italian American societies attended the performance of "Wang" in a body, and the genial comedian, assisted by his merry comrades, sang the praises of the great navigator in appropriate verse, written expressly for the occasion. During the second act Mr. Hopper was presented with a magnificent floral tribute, which was an almost exact reproduction of the Columbus monument to be erected at the entrance of Central Park, on 59th Street.

On Monday evening, Oct. 3d, the 45th performance and 50th night of Mr. Hopper's third "Wang" engagement in New York city will be given. The occasion will be made memorable by the presentation of handsome souvenirs. Stuart Robson in "She Stoops to Conquer."
Fancy a playwright attempting to break the head of a critic in these days! And that was exactly what poor Goldy set out to do one fine morning, when maddened beyond endurance by the envious, scurrilous screed on "She Stoops to Conquer" written by a fellow named Evans. The infuriated author found the critic in a bookseller's shop, and went at him with his cane. There was a pretty lively scrimmage, and no one knows how it might have ended had it not been suddenly brought to a close by the breaking of an oil lamp overhead, which deluged the two belligerents, and literally poured oil on the troubled waters.

While the thrashing of a critic is in doubtful taste, there have certainly been plenty who deserved it. Envy, hatred, and malice, to say nothing of the shallow desire to appear smart and witty, too often actuate the critic when he writes his notice. This certainly was the case with the writers who levelled their shafts at "She Stoops to Conquer." What can be more just than the slow, calm verdict of a century? The beautiful, sparkling old comedy has become a classic. It is with positive delight that we hear it is to be produced at Miner's Newark Theatre next week, splendidly staged and finely cast, by so good an artist as Mr. Stuart Robson. Tony Lumpkin, that rollicking and altogether delicious rascal, is to be played by Mr. Robson himself, and as he is giving much care and study to the character, it will doubtless be acted in the usual artistic and thoroughly delightful manner that has made noticeable his other interpretations.

"She Stoops to Conquer" will be produced every evening next week at Miner's Newark Theatre. Usual Saturday matinee at 2.
Shoenthal's, the lending shoe house, will be closed all day today, and will open at 5 p. m.—Advt.

Bunting and Knights of Pythias flags for Pythian Field Day at Harris Bros.—Advt.

A Letter From Fairview.

TO THE EDITOR OF THE CITIZEN:

SIR: The Fairview Improvement Association met last Monday evening at the residence of C. L. Selbert, the former efficient Treasurer of the Bloomfield Township Committee, and as he has been at his own expressed wish relieved from the arduous duties attendant upon that office, we expect in the future to avail ourselves as an association of his sage advice and counsel. Our meetings being of a social as well as a business nature are very enjoyable affairs. With that huge historic potato we read of in THE CITIZEN of last week lying upon the mantel, and the great big warm heart of our worthy host and fellow-member thumping against his ribs a welcome for us, together with a large membership and new accessions thereto, conspired to make our meeting a grand one. And it was a benediction to every one present to see the smile that stole over the countenance of our very highly esteemed Treasurer as the funds came pouring into his coffers from the hands of his fellow-members, for, by the by, he it remembered that it takes money to run an Improvement Association of the nature and design of that of Fairview. We are no dress parade affair as our membership is made up of men of "action, noble, Godlike action."

Among the many matters discussed at our last meeting was the star-chamber afternoon sessions of our new Township Committee. Time was, as all remember, when the Township Committees of years gone by held their meetings in the evening, thereby affording an opportunity for those whose business relations were such that they could not possibly attend a day meeting to attend at night and in person lay their business matters before the honorable body. But now, alas, none but nabobs, gentlemen of leisure, bankers, capitalists, etc., can enjoy the exquisite privilege of holding communion on business matters with our present Township Committee. "But,"—say they, "it is not necessary for you to present your wants and wishes to us in person. You can communicate with us in writing." This sounds very well, but we as business men know how easy it is for these communications to find their way to the waste-basket, besides we know too what a difficult matter it would be for our honorable Township Committee to drop into a waste-basket a member of the Fairview Improvement Association, should such member have the opportunity of a personal interview with that august body.

If the Township Committee are the chosen and elected representatives of the taxpayers of Bloomfield as a body, why should they not so arrange the time of their meetings as to accommodate all, or at least the major rather than the minor portion of the taxpayers, whose money they have nearly the sole handling and disposition of? Public opinion, as we believe, and past precedents, as we know, speak not in an unknown tongue that evening is the proper time for the meetings of the Bloomfield Township Committee.

Another question discussed in our association was, has the highly efficient Postmaster of Bloomfield, wherein has been established what has been termed the system of free delivery, the right to extend that system of free delivery beyond the limits established by the postal authorities of the United States government. It was our opinion that he had no such right; and if he had no such right why did he do it, thereby favoring the wealthy few and slighting the many in the less favored walks of life. If we are mistaken and the worthy Postmaster of Bloomfield has the right to extend the free-delivery system we earnestly beg him to extend it just a very little further and take in the balance of Fairview. If importunity would do the business we would send a bevy of importunate women who would soon bring him to terms, for if one woman could bring the unjust judge of Scripture fame to terms what would a dozen or more of the fairest of the fair of Fairview do with our Postmaster should they begin to weary him with their continual cooings.

The wife of our worthy Secretary, W. B. Hanna, has been away from Fairview for some time for an outing among her friends, and is no doubt enjoying the beautiful autumn weather we are being favored with just at present.

Mr. and Mrs. C. L. Potter of Fairview leave this week for the "Hub," and from there on an extended trip through the "Old Bay State" and the "Old Granite State," visiting relatives on the route, pleasure being the object of their visit. A boy in Fairview came very near losing his life by gently pulling out a loosened tooth from his mouth with his fingers. As soon as the tooth was extracted the blood began to flow in a stream from his mouth, and it was not until a physician was called in that the flow of blood was stopped and the frightened family relieved of the fear that their loved and talented boy would bleed to death. After several less frightful hemorrhages extending on for a few days, it is now hoped that the lad is on the high road to recovery.

"Tired All the Time,"
Is the complaint of many poor mortals, who know not where to find relief. Hood's Sarsaparilla possesses just those elements of strength which you so earnestly crave; it will build you up, give you an appetite, strengthen your stomach and nerves. Try it.

Hood's Pills act especially upon the liver, rousing it from torpidity to its natural duties, cure constipation, and assist digestion.—Advt.

AT THE CHURCHES.

First Presbyterian.

The Rev. H. W. Ballantine, D. D., pastor. To-morrow the Lord's Supper will be administered in the morning at 10.30 o'clock. Sermon by the pastor in the evening at 7.30 o'clock. Sunday-school at 12 M. A cordial welcome is extended to strangers.

Woman's Christian Temperance Union. Weekly meetings of the Union are held every Tuesday, at 3.30 P. M., at 14 Washington Avenue. All members and friends are cordially invited to attend.
Joseph Ruby, of Columbia, Pa., suffered from birth with scrofula humor, till he was cured by Hood's Sarsaparilla.—Advt.

HEATH & DRAKE

Our Special Purchase of the entire stock of Messrs. Frazee, Connet & Co.

of this city, made last week, is now completely transferred to our store, and its sale will commence immediately.

OF THE CHARACTER
of this stock it is not necessary that we should speak, as it is already well and widely known to residents of Bloomfield and vicinity.

The Price
at which the purchase was made enables us to place before our customers a larger range of Attractive Bargains than has ever been before grouped in any single house in this city. It is our purpose to sell these goods at about One-third less than their present value, so that every buyer of Dry Goods will see that it is greatly to their advantage to buy now, not only for present wants, but also for future requirements.

Heath & Drake,
777-779 BROAD ST.,
NEWARK, N. J.

Sold by Druggists, 75c.

What is the Electropoise? and What Will it Do?

The Electropoise has been in use for four years, and is well known in some sections of the United States, but there are a great many sections that have never heard of it. The fact that has heard of it and seen something of its wonderful power are curious to know how an instrument so small and so simple can accomplish cures so great. Now, while the Electropoise is very wonderful, it is not at all mysterious. Its operation falls in with what we know of science, and any one at all familiar with the simplest facts of Biology and Physics can understand.

HOW IT OPERATES.—The way in which the Electropoise accomplishes its cures is very simple and natural. It consists of a polarizer, which is connected by a wire cord with a small plate and garter. This polarizer is immersed in cold water, or put on ice. The plate at the other end of the cord is attached to the warm body of the patient, generally at the ankle. From the inherent nature of this polarizer it becomes negatively charged. By the well known laws of induction, the plate, and with it the body of the patient, becomes positively charged. The body thereby becomes a center of attraction for nerve bodies. Oxygen is the most negative form of matter in nature. Hence the body, bathed in the atmosphere, drinks in the life-giving oxygen at every pore. Every process of life is thereby quickened. The temperature rises; the pulse throbs with a fuller beat; the skin tingles with new life; every organ acts with renewed vigor, and the effects poisonous products of the body are thrown off with ease.

That quickened change of matter which oxygen produces throughout the system is accompanied by a largely increased genesis of Nerve Force. Organs hitherto dormant are born again, and begin to perform their wonted functions. The heart, the lungs, the liver, the organs of the senses, the organs of reproduction—all these throw off their derangement and weakness, and even the disordered intellect is oftentimes restored. Where a case has not already made too great ravages, restoration to perfect health is inevitable. The Electropoise is in use at night while the patient is asleep, but may be applied, of course, at any time, and to several persons during the twenty-four hours. It is a life-time, never wears out nor loses its strength, never needs mending nor recharging.

One in each family will render that family largely independent of doctors and druggists, and thus will save every year many times its small cost.
NOT AN ELECTRICAL APPLIANCE.—The Electropoise is not in any way akin to the numerous electrical appliances, such as *bells, masses, currents, shocks, etc.*, palmed off upon the public. It has no method of generating a current, nor means of conducting one. It acts upon well-known biological principles, and is heartily endorsed by many of the best physicians in this and other countries, and is daily used by them in their practice. It is pronounced by them the greatest discovery in the history of medicine, in that it does away with the use of medicines.

DIRECTIONS FOR USING.—Accompanying each instrument is a book of instructions fully explaining its uses. Its method of cure is so simple and free from danger, that the uninitiated and even children can use it with perfect ease and success.

Editors of Boston Christian Witness and Advocate of Bible Doctrines, September 3, 1901:
"A method of treatment of disease without the use of any medicines or drugs, which has been quietly extending itself over all parts of the United States during the past three years with very gratifying results."

"We are slow to commend new discoveries of any kind, for the reason that so many of them prove to be worthless. But we can commend the Electropoise as a safe and effective health restorer. We do not pretend to explain the philosophy of its workings, but, having realized its beneficial effects, we can speak of its results. About one year ago we recommended it to Bro. I. D. Ware, of Philadelphia, for his son, who was great sufferer from scrofula. He had sought relief in various ways and found none. He was almost helpless, and rapidly declining. The use of the Electropoise restored him to perfect health, and now, after nearly a year, he is rejecting as one who has found great profit. We have been testinomial of most remarkable cures. This notice of the Electropoise is without solicitation, and entirely gratuitous. We do it for the good of the afflicted. We have no personal interest in it, and are not paid for what we say in its favor."

The following editorial in Central Methodist, Cambridge, Ky., was written by Zephaniah Meek, D. D., editor:
"Unless about ten thousand men, mainly professional men, lawyers, doctors, editors, preachers, and all other classes, including the writer, are very much mistaken, the Electropoise cures and gives relief where all other known remedies have failed. Especially is it efficacious in the case of delicate women and feeble children. I have used one for the past two years, and find it invaluable as a curative agent."

Many of prominent people in all sections of the U. S. generally can be furnished on application. Our cures cover all parts of the United States and Europe. Over 50,000 people have been treated, with the most gratifying results. In the large majority of cases the cures have been speedy, but our claims are modest, and in long-standing chronic cases you cannot expect speedy cures. We positively refuse to sell the Electropoise in hopeless cases.
